

# Jessica Zheng

## Full Stack Developer

Junior developer with an eye for detail, flair for design and passion for crafting innovative, impactful solutions. Solid foundation in computer science fundamentals and committed to continuous learning. Keen interest in tech and eager to bring my unique background and skillset to projects and tackle real-world problems.

## Projects

### HR Management System | Python, Bash

[github.com/JZ2803/terminal-app](https://github.com/JZ2803/terminal-app)

- Terminal application for management of employee information such as identification, contact details, title, remuneration, and employment status.
- Developed functionalities to add, remove, modify, search and view records stored in CSV employee database file.

### Portfolio Website | HTML, CSS

[jessica-zheng.netlify.app](https://jessica-zheng.netlify.app)

- Portfolio featuring information about myself, contact details, projects and blog posts.
- Designed website layout and aesthetic with focus on being clear, easy-to-navigate and visually appealing.
- Implemented responsive layout utilising CSS Flexbox.

## Professional Experience

### Executive, Group Financial Reporting | Macquarie Group

January 2022 - February 2024

- Prepared financial statement disclosures, regulatory returns and information packs for senior stakeholders.
- Redeveloped multiple Excel working files with large datasets, integrating data linkages and automated validation checks to reduce manual efforts.
- Played key role in planning, building, testing and implementation of new automated workflows as part of transition to cloud-based platform.

### Assistant Manager, Audit & Assurance | KPMG

July 2019 - December 2021

- Managed day-to-day fieldwork of audit team and coordinated communication between clients, cross-functional and offshore teams.
- Tested controls by conducting walkthroughs with clients to understand business processes and reporting systems.
- Documented process and findings of audit procedures.
